THE HISTORY OF
PRO-SHOT PRODUCTS

Our Family heritage and passion for the shooting sports and hunting has been passed down from the generations in the Damarin family. It was no wonder in 1982, our founder John E. Damarin developed the best quality cleaning products made in America. When I was a young boy, I remember traveling with my parents, going to shotgun, rifle, and pistol matches all over the Midwest every weekend. Shooting has always been our family's hobby, as my Father and Mother shot together in many matches. I was always with them shooting or helping them sell products at the local matches or gun shows. For me shooting and gun cleaning has been a way of life and passion, not a job or task, but truly a way of life. Accuracy only comes with consistency, so quality is important for all aspects of shooting. My Father started Pro-Shot with the goal of making quality firearm cleaning products that worked faster and easier. Not to mention, American Made right in our hometown of Taylorville, Illinois. This is something that would not be compromised or changed ever, as my Father always believed we could make the best quality products in America. John E. Damarin truly loved his family, country, and shooting. From the early days, my Grandmother was an important part of Pro-Shot. She helped in any way that she could, and taught us many lessons. She is the reason that we pack our orders very organized and neatly. Our customers can tell you that Pro-Shot is the best in the industry. Grandpa would pull customers' orders, Mother would help in the office and ship orders. I was in charge of helping do whatever was needed, from sweeping the floor to making products with my Father. Even my Uncle helped in the early years with printing. Pro-Shot is truly a story of one family's American dream turned reality. As a young child around the fall of 1981, my Father was telling me how our shooting buddy had gotten a plastic patch holder stuck in the bore of his gun during a important match. His friend was cleaning between rounds and the plastic patch holder broke off in his barrel. Then he took the firearm home and heated the barrel up over the stove to get the patch holder removed from the bore. That's when my Father told me, "Son, we can make gun cleaning accessories better than that." From this problem our shooting buddy had, Pro-Shot was born in our small one car garage. Our first product we manufactured was firearm cleaning patches, and I must tell you as a young boy it was a lot of work making them by hand and printing bags ourselves. My Father taught me the importance of quality, value, innovation, and hard work. We continue to pass down our passion, quality, and excellent service for the shooting sports to the 4th generation. Thank you for your support of Pro-Shot Products, and we hope you enjoy our products as much as our family and dedicated staff enjoy making them for shooters across the globe.

Thank You from

The Damarin Family & Dedicated Staff

SPLATTER SHOT

WHY CHOOSE PRO-SHOT SPLATTER SHOT TARGETS?

- Excellent Splatter effect makes shots clearly visible downrange.
- Peel & Stick targets not only adhere in normal situations, but in range and field use have proven them to out stick the competition in Morning Dew, Dust, and Sand Enviorment.
- Resealable (Zip Top) packaging makes it easy to keep and use targets during multiple range visits.
- Quality targets at affordable costs to you.
- Exclusive reactive target repair/pasters on roll.
- Tactical design targets for pistol/rifle/shotgun.
- High/Low visibility targets that are great for all shooting light conditions.

Pro-Shot is honored to offer this tool for individual sale along with being an option for our 5.56mm Coyote Tactical Kit and our complete line of Military/Government/LE catalog tactical kits.

MADE IN USA EXCLUSIVELY FOR PRO-SHOT by DDR Custom and Quality Knives.

ITEM# 5.56-SERMON

About MASTER PROVEN

Master Proven is an independent, 3rd party testing and evaluation organization. The goal is simple: determine what works, how it holds up to punishment, and whether the price is objectively reasonable in the context of purpose, construction, and performance. The Master Proven evaluation team is drawn from across a broad spectrum of military, law enforcement and other tactical professionals. Team members are all current or former; Soldiers, Marines, Airmen, Sailors, Coast Guardsmen, Police Officers, and Sheriff's Deputies. In many cases they are both, and include a wide array of disciplines (Special Operations/ SWAT, EOD, Scouts, Snipers, Patrol, and Detectives). Evaluators are divided into teams headed by one of our Master Sergeants, MPO's (Master Police Officers) or other Master Team Leaders. Collectively, these Master Team Leaders have over 150 years of real world tactical experience. End users can have confidence that the items in question will have undergone a rigorous and thorough testing.

1 AND 2 PIECE RODS

Premium Stainless Steel Micro-Polished Rods

STAINLESS MICRO-POLISHED ROD WITH SWIVEL HANDLE

Why Is A Pro-Shot Rod The Best In The World?

- Pro-Shot made to spec stainless steel rods are less harder than barrel steel
- Heat treated for strength and durability. Increases the rod life and performance due to less rod flex during use
- Centerless grinding process on all rods
- Pro-Shot rods have two additional steps to the manufacturing process: Mirror Finish Polish and Micro Polishing/Burnishing
- The Mirror Finish Polish prevents the rod from picking up abrasive fouling or grit and carrying it through the bore scratching the barrel
- Micro Polishing/Burnishing builds the coating into the rod manufacturing process to give the stainless a pristine and totally smooth jeweled finish
- Proprietary handle design allows rod to spin with rifling and clear the high stocks of certain rifles with ease
- Easily handle harsh solvents with no rod deterioration
- Each rod includes a patch holder or jag
- Advertised length is the actual working length of the rod, for full length add four inches for the handle
- Packaged and shipped in a reusable plastic tube for storage and transport

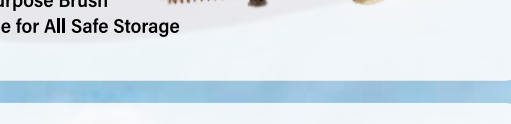
ITEM# CHL223



37mm/40mm Grenade Launcher Rod

The Rod is designed specifically to clean and maintain the military issue M203 (40mm) grenade launcher and 37mm variants. The cleaning rod features micro-polished stainless steel rod and a fixed red aluminum handle.

FIXED (NON-ROTATING) FULL SIZE ALUMINUM HANDLE
12" STAINLESS STEEL ROD | THREAD SIZE IS #5/16-27

ITEM# 37GLRD

Chamber Tool

10" Working Length Stainless Micro-Polished Rod with Fixed (Non-Rotating) Full Size Handle Designed for cleaning pistol and rifle chambers. #8-32 Thread.

ITEM# CH2

Flexible Chamber Tool

The flexible chamber tool is used for cleaning semi-automatics and lever action firearms that are not easily taken apart. The tool has a flexible cable that is used through the loading or ejection port of the action to gain access to the chamber which is attached to a Fixed (Non-Rotating) Full Size Handle. The attachment of a chamber mop or a bore brush with a patch wrapped around the brush does an excellent job of cleaning the chamber.

ITEM# CH1

8" Working Length 8/32 Threads

SUPERIOR QUALITY BRUSHES

Tornado Brushes

Often referred to as "The Gunsmith Brush," Pro-Shot's Tornado brushes have a special spiral-wound design that's highly effective for cleaning bores. The brass loops eliminate any bristle end that could leave scratches, yet removes fouling without damaging the bore. The spiral design makes it easy to reach all of the hard to get spots. All brushes have #8-32 thread, except 12 & 20 GA. which are #5/16-27 thread.

Patriot Series HD

Nylon Bore Brushes have stiff bristles that help remove fouling without damaging the bore. These brushes are heavy duty, which is great for heavily fouled barrels. All brushes have #8-32 thread, except 12 & 20 GA. which are #5/16-27 thread.

- **Stiff heavy duty red, white, and blue nylon bristles**
- **Will not flatten like standard brass bristle brushes**
- **Made with solid Brass Core and Coupling**
- **Stiff colored bristles resist ammonia and oil based cleaners**

Tactical Wipe Cloths

ITEM# TWC

The cloths are 100% cotton flannel, finished on both sides, packaged in a reusable bag, and are intended for wiping any excess oils from your firearm during and after the cleaning process. Pro-Shot's Tactical Wipe Cloths are great to keep with your favorite tactical gear for a handy, untreated, and quality cleaning cloth.

Metal Care Cloth

ITEM# MMC

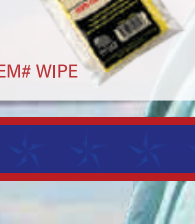
This cloth makes polish obsolete. Cleans all metal exterior on firearms including blued and stainless surfaces, and also removes surface rust and tarnish. This non-toxic cloth also works great for cleaning and protecting knives, tools and other gear. Comes in a reusable bag for future use.

Silicone Cloth

ITEM# SILC

Our silicone cloth has become a shooter's favorite, made of double napped 100% cotton flannel and double treated with pure silicone. The silicone cloth removes fingerprints, potentially corrosive epidermal oils, polishes, and cleans. Packaged in a reusable poly bag, staying clean and moist after use.

Lead Clean Gun Cloth



ITEM# LCC

This cloth is excellent for Stainless Steel Firearms. Restores original luster, while removing lead, carbon residue, and tarnish. The cloth can be cut to desired size or into patches to remove unwanted residue inside the chamber, cylinder, forcing cone, and the bore/choke area. Comes in reusable bag.

Wiping Cloth

ITEM# WIPE

12" x 12" non-treated cotton flannel cloth packaged in a reusable bag. Finished on both sides for absorbency. Can be used for wiping firearms or about any object. Package contains 3 cloths.

LUBRICANTS AND DEGREASER

Pro-Gold Lubricant

Excellent for Firearms, Reloading Tools, Sports Equipment, Fishing, Tackle, & Compound Bows

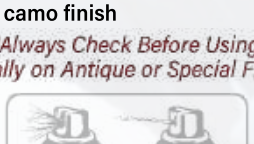
A special high-quality formula grease engineered for firearm lubrication and protection. Superior performance on stainless, chrome moly, nickel, and blued firearms. Prevents metal wear in the following areas: bolt action, locking lugs, actions, frame rails, shotgun hinge pins, reloading tools, bearings, gear and camming surfaces.

Item#	Desrciption
PGL-SYR	10CC SYRINGE
PGL-1	1 OZ. JAR

Fouling Blaster

- Synthetic Safe Degreaser/Cleaner
- Unique cap offers straw or wide spray option
- Safe for Most Firearm Finishes
- Quickly evaporates & Blasts Fouling away
- Solves most malfunction problems
- Makes cleaning firearms faster & easier
- Cleans fast, will not harm most plastic, wood, laminates, composites, rubber grips, or any other material including camo finish

**Always Check Before Using. Especially on Antique or Special Finishes.*



DUAL SPRAY SYSTEM

Item#	Desrciption
D-14	14 OZ. AEROSOL CAN

Zero Friction

ADVANCED SYNTHETIC LUBRICANT

Premium Ultra-High Technologically Advanced Synthetic Lubricant Specifically Designed For Firearms and Knives

Zero Friction is a combination of a premium synthetic base, extreme pressure additives, anti-wear, anti-oxidants, and rust preventative additives. This lubricant provides smooth performance and protection on all moving metal parts. Operates in extreme heat and cold providing lubrication from -75° to over 450° F.

Item#	Desrciption

ZF-SPRAY-6	6 OZ. SPRAY CAN
ZF-GAL	1 GALLON JUG

Choke Tube Lubricant

ITEM# CTL-SYR

Superior anti-seize lubrication for use on the threads of shotgun choke tubes, black powder breech plugs, and suppressor threads.

Item#	Desrciption
CTL-SYR	10CC SYRINGE

BIO-4X All Weather Gun Oil

- Non-Toxic, Biodegradable, Odor-Free Lubricant
- 4x as lubricious as petroleum based lubricants
- Repels Water
- Made from renewable USA grown crop-based vegetable oils
- Helps parts to function better, frees rusted parts, prevents corrosion
- Instantly penetrates and lasts longer so it can be applied less often
- Reduces heat and friction better than petroleum based products
- Higher flashpoint than petroleum, so it's safer to use
- Higher viscosity so it's less likely to thin out at higher temperatures
- Higher film strength so it can withstand pressure better
- Multi-Purpose and all weather lubricant and penetrate
- -40° to 590° F operating temperature range

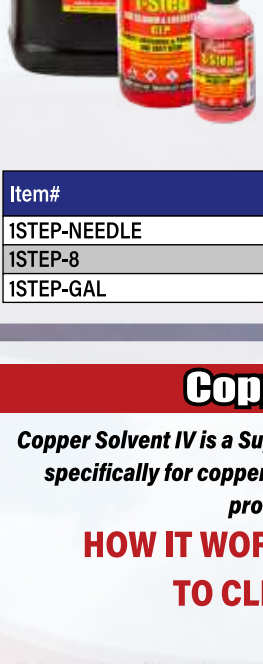
4X MORE LUBRICATION

Item#	Desrciption
BIO4-NEEDLE	1 OZ. NEEDLE BOTTLE OILER
BIO4-GAL	1 GALLON JUG

GUN CLEANING SOLVENTS

1-Step Gun Cleaner & Lubricant CLP

Use Pro-Shot's 1-Step 1 oz. needle dropper for pinpoint accuracy with no mess. Also great for those hard to reach areas that need cleaned.



- Excellent for Removing Lead, Powder, Plastic, and Copper Fouling
- Repeated use protects the bore, lessens fouling, and residue buildup
- 1-Step CLP penetrates the metal making gun bores and actions easier to clean
- Cleans and eliminates stiff actions, jamming, and loosens rusted parts
- Lubricates and Protects: Rust inhibitors and special additives penetrate the metal and provide a corrosion barrier for superior rust protection
- Synthetic Proprietary formula

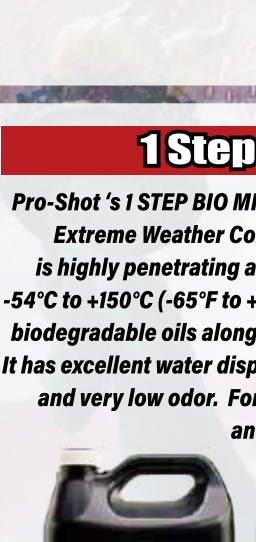
MADE IN USA

Pro Clean Gun Cleaner #1

Pro-Clean can be described as the Next Generation Performance Technology, homing in on its effectiveness as a water based cleaner. This innovative cleaner is non-toxic, biodegradable, and environmentally friendly. Pro-Clean removes fouling, conditions metals, reduces cleaning time, and maximizes performance and reliability.



- *Non-Toxic * Non-Flammable * Biodegradable
- Significantly cuts cleaning time
- Improves accuracy and reliability
- Conditions metal to reduce future fouling
- Removes carbon, lead, and most copper fouling
- Polymer safe formula

Copper Solvent IV

Copper Solvent IV is a Superior New Generation Formula that is made specifically for copper and powder fouling, while providing rust protection for your barrel!

HOW IT WORKS FAST & EFFECTIVELY TO CLEAN YOUR BARREL

- Our synthetic formula uses activated positively charged ion additives that have a special affinity for copper and its oxides
- The positively charged ions search out the negatively charged copper and copper oxide molecules. They bond and release the copper from the surface of the bore to provide a superior clean surface without copper and powder fouling
- Copper Solvent IV is SMARTER, HEALTHIER, and ENVIRONMENTALLY SAFER way to clean than the old brute force method of throwing harsh chemicals at copper fouling
- A fouling free barrel can give you improved accuracy

Item#	Description
SVC-8	8 OZ. BOTTLE
SVC-GAL	1 GALLON JUG

1 Step Bio MIL-SPEC CLP

Pro-Shot 's 1 STEP BIO MIL-SPEC CLP keeps your weapon operating in Extreme Weather Conditions. This new BIO Mil-Spec formula is highly penetrating and operates at temperatures ranging from -54°C to +150°C (-65°F to +302°F). Contains a superior base of synthetic biodegradable oils along with anti-corrosion and anti-wear additives. It has excellent water displacing properties as well as a high flash point and very low odor. Formulated with a high content of renewable and bio-based materials.

- Meets MIL-PRF-63460F TYPE B
- NATO Code Number S-758
- Operates in Extreme Temperature ranges
- Excellent Rust & Corrosion Protection

Shotgun Port Brushes

Extra stiff, twisted wire, stainless steel brushes are tapered and sized to fit directly in the port. This will loosen residue and carbon fouling, leaving the port clean and ready to go.

ITEM# PORT

TWO POPULAR SIZES OF PORT BRUSHES PER PACKAGE

12 GA. Chamber Brush

This chamber brush features heavy duty, stiff bronze bristles wrapped in a thick core that is looped on the end for strength and durability. This also avoids accidentally scratching the finish off of the firearm. The brush core is threaded to attach directly to the rod.

Item#	Description Thread Size
12SB	12 GA. CHAMBER BRUSH 5/16-27

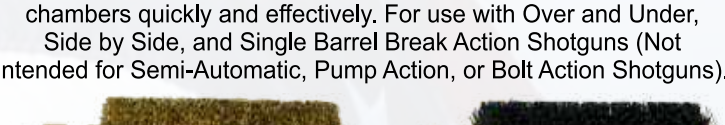
Choke / Chamber Tool

ITEM# CHTOOL

This 4" working length compact tool is used with a bore or chamber brush to clean the choke and chamber. Great for the chambers of over and under and side by side shotguns. Accepts #5/16-27 threads.

Payne Galway Brush Set

These premium chamber brushes hava a full fill of bristles that will clean chambers quickly and effectively. For use with Over and Under, Side by Side, and Single Barrel Break Action Shotguns (Not intended for Semi-Automatic, Pump Action, or Bolt Action Shotguns).



Payne Galway Chamber Brushes

This premium chamber brush has a full fill of bristles that will clean chambers quickly and effectively. For use with Over and Under, Side by Side, and Single Barrel Break Action Shotguns (Not intended for Semi-Automatic, Pump Action, or Bolt Action Shotguns).

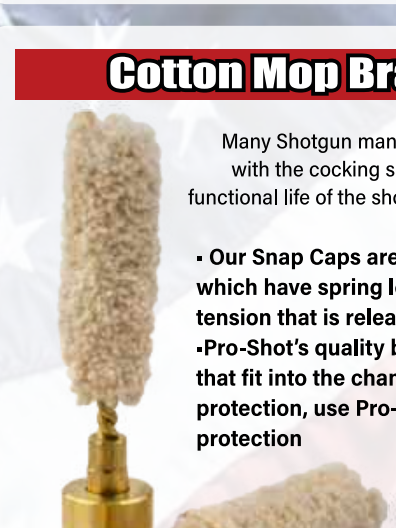
Cotton Mop Brass Snap Caps



Many Shotgun manufacturers recommend storing shotguns with the cocking spring tension let off. This can add to the functional life of the shotgun and keep it in optimum working order.

▪ Our Snap Caps are made with beautiful brass heads, which have spring loaded firing pins for the ease of tension that is released when the shotgun is fired
▪Pro-Shot's quality brass snap caps have cotton mops that fit into the chamber area for chamber rust protection, use Pro-Shot Zero Friction for added rust protection

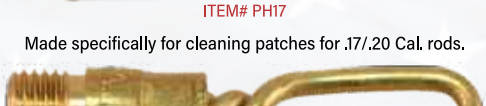
BRASS ACCESSORIES

Brass Patch Holders

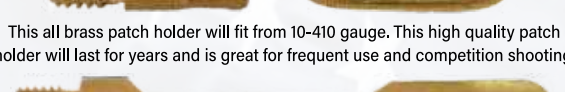
ITEM# PH17

Made specifically for cleaning patches for .17/.20 Cal. rods.



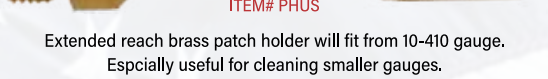
ITEM# PH12

This all brass patch holder will fit from 10-410 gauge. This high quality patch holder will last for years and is great for frequent use and competition shooting.



ITEM# PHUS

Extended reach brass patch holder will fit from 10-410 gauge. Espcially useful for cleaning smaller gauges.



ITEM# PH30

Brass patch holders are great for holding patches to clean the bore. The patch holder can be used for applying solvent and then swabbing out the fouling.

Item#	Fits
PHB	.22-.45 CAL.
PH30	.30 CAL. & UP ROD

Bore Obstruction Remover

You can screw the bore obstruction remover onto the Pro-Shot cleaning rod to remove stuck/broken shells from chamber. Excellent for field use!

Item#	Fits

ITEM# CR-308

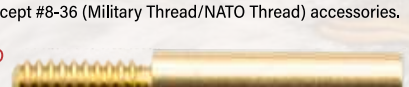
Military Thread Adaptor

The Nato Military Adaptor attaches to #8-32 (Standard American Commercial Thread) rod to accept #8-36 (Military Thread/NATO Thread) accessories.

ITEM# NATO-AD

Adaptors attaches to #8-36 (Military Threaded Rod) to accept #8-32 (Standard American Commercial Thread) accessories.

ITEM# MAD



Brass Adaptors

This adaptor is an excellent accessory to use on a large diameter cleaning rod for pistol and rifle cleaning. The beveled front makes the alignment and transition smooth from .250 diameter cleaning rods (.270 Cal. and UP Rods) to bore and chamber brushes, which eliminates an open edge when using a brush on larger diameter rod.

ITEM# AD2

This adaptor is used on a 17. Cal. and .20 Cal. Pro-Shot cleaning rods. The adaptor changes the 5-40 threads to 8/32 threads. This allows .22 Cal. accessories to screw on the smaller diameter rod. Using the smaller diameter rod is helpful in cleaning tight bore .22 Cal. Rimfire rifles

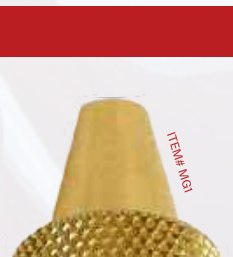
ITEM# 17AD

Adapts #8-32 thread to accept #5/16-27 thread on shotgun brushes and accessories (make a rifle rod into a shotgun rod).

ITEM# AD1

Muzzle Guard

Quality made brass accessory used to protect the muzzle of your firearm when cleaning from the muzzle end. Centers the rod and protects the muzzle crown during cleaning. There are two different sizes available for use on Pro-Shot micro-polished cleaning rods.



Item#	Fits
MG1	.22-.45 CAL. RODS
MG2	.27 CAL. & UP RODS

Rod Stop

Rod Stops are an excellent accessory that can be used to set the rod to the exact length desired during use. This is used in conjunction with our Muzzle Guards on micro-polished cleaning rods in pump, lever action and automatic actions. Makes sure rod is not forced into firing pin when cleaning from the muzzle end of the barrel

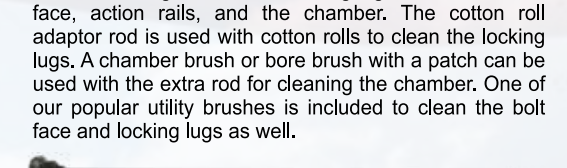
Action Chamber Cleaning Tool Kit

This kit is designed to clean locking lug recesses, breech face, action rails, and the chamber. The cotton roll adaptor rod is used with cotton rolls to clean the locking lugs. A chamber brush or bore brush with a patch can be used with the extra rod for cleaning the chamber. One of our popular utility brushes is included to clean the bolt face and locking lugs as well.



ITEM# ACT-KT

Item#	Description
ACT/KIT	ACTION/CHAMBER CLEANING KIT
ACT/R	REPLACEMENT COTTON ROLLS (Qty. 50/PKG.)

Small Brass Scraper

Excellent for removing carbon deposits and other debris from the bolt face, rails or any other flat surface on your firearm.

ITEM# SCR-1

Mini Accessory Brush

The Mini Accessory brush is excellent for lubricating slides and for removing loose fouling and debris during the cleaning process.

ITEM# MA-BRUSH

Gun Brushes

Great all around utility brushes can be used for cleaning, polishing, and restoring. Nylon bristles have the cleaning power to remove fresh carbon or powder residue inside or out of your firearm, but won't scratch the finish. Bronze bristles clean more stubborn residue on metal surfaces that require more aggressive scrubbing action like inside slides, receivers, or locking lugs. You can use a cleaning patch over the bristles to help remove fouling during use. Stainless steel is best for aggressive cleaning of fouling other brushes cannot remove. Use stainless steel on interior surfaces only, because it will scratch and mark most gun steel and finishes.

ITEM# M16-GLOBE

ITEM# BZDE-GLOBE

Brass Gun Pick Tool/Scraper

This superior tool's unique design makes an excellent pick or scraper. The design makes it easier to run patches down grooved surfaces and reach difficult places like under the extractor. The brass will not break down or wear like plastic tools, which allows for better leverage and control while cleaning.

ITEM# GPT

Item#	Description
GPT	GUN PICK/SCRAPER TOOL

Nylon Gun Brush End

Short Nylon Gun Brush is handy for any field or range, excellent for getting into those hard to reach places.

ITEM# N-GBE

- **Excellent addition to field or range box, the nylon brush end screws onto any rod with standard #8/32 threads**
- **Allows easy access to scrub carbon, powder, and copper fouling**

Item#	Description
N-GBE	2 PACK OF BRUSH ENDS
M-16-COMBO	M16 & N-GBE COMBO
N-GBE-100	GLOBE OF 100 N-GBE

5 Piece Gun Pick Tool Set

- **Four double-ended picks allow for 8 different cleaning options.**
- **Double ended nylon brush with stiff nylon bristles.**
- **Works great for all those difficult to reach places, like under the extractor.**
- **Made from high strength polymer.**
- **Won't scratch even the finest surface**

ITEM# 5PC-GP

Precision Pick Tool

The precision pick is designed to remove heavy carbon build-up from the bolt carrier group parts of your AR15/M16/M4 platform rifles. Especially great for cleaning hard to reach places on AR-Platform locking lugs.

ITEM# PP

GUN CLEANING

Adjustable Bore Guide Fits Short & Long Actions

The "Stopper" Bore Guide Front Prevents Solvent and Fouling from running back into action. Adjusts to fit action lengths precisely

Bore Guides should be used when cleaning a Bolt Action Rifle. Bore Guides protect the bore throat and keeps the cleaning solvent from getting into the trigger mechanism. Our "STOPPER" Bore Guides are made from aircraft grade anodized aluminum for quality and durability. The brass pin holds the anodized aluminum sleeve in place and does not work loose like plastic parts will. The Delrin tip and end screw onto the red anodized aluminum tube to firmly fit and center the rod throughout the cleaning process. The extra tips and solvent port ends included in ITEM# BG22-30 are laser engraved for size identification White Tips/Ends: .22 Centerfire - .25 Cal., Black Tips/Ends: .26-.30 Cal.

ITEM# AR-SUPPLY

Delrin Rod Guide

When placing over the muzzle, these Delrin rod guides allow cleaning rods to go straight into the barrel while protecting the muzzle area/end. This is designed to keep the cleaning rod centered in the bore while cleaning and protecting the barrel crown. Helpful when it is not possible to clean from the breach end.

ITEM# M-14-RG

- FOR USE WITH ANY .250 DIAMETER .30 CALIBER RODS
- HEAVY DUTY DERLIN CONSTRUCTION

Item#	Description
M-14-RG	M-14/M1A ROD GUIDE FITS ALL MILITARY STYLE M14 & M1 RIFLES
M1G-RD	M1 GARAND ROD GUIDE

AR Platform Bore Guides

ITEM# BGAR15

Pro-Shot's AR Platform Bore Guides are manufactured using Delrin. Delrin is a chemical resistant material that will stand up to continual use. Available in the actions listed below. All AR Platform Bore Guides have a solvent port for convenience and efficiency in applying solvent to the cotton patch.

Item#	Caliber	Bore Guide Fits
BGAR15	.223 Cal.	AR-15
BGAR6.8	6.8 MM	AR-6.8
BGAR10	.308 Cal.	AR-10
BGAR300-BLKOUT	.300AAC BLACKOUT	7.62 X 35MM

AR Cleaning Link

ITEM# ARCL

The AR hold-open link separates upper and lower receiver assemblies, locks them in place, and prevents the receiver from flopping closed constantly while trying to clean. Delrin link installs in seconds and is impervious to solvents. It uses the original rear pin and pin hole for attachment. Enables you to easily clean and lube the action or swab out the barrel from the breech end without the hassle.

FITS AR15 PLATFORM

BLACK POWDER ACCESSORIES

Black Powder Jags

Button style brass jags are made with a steel threaded stud for extra durability when cleaning black powder firearms.

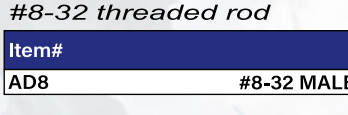
54BP-10/32	.54 Cal.
58BP-10/32	.58 Cal.

Black Powder Worm



The worm is the best accessory for patch retrieval. It is made with a heavy gauge steel wire attached to a sturdy brass base for strength. Made for heavy duty use.

Item#	
WRM-10/32	#10-32 THREADS

Black Powder Adaptor

This Black Powder Adaptor allows #10-32 threaded accessories to be used on a #8-32 threaded rod

Item#	Black Powder Adaptor
AD8	#8-32 MALE TO #10-32 FEMALE ADAPTOR

Black Powder Ball Puller

This Ball Puller has a tapered tip with sharp threads for a good grip while pulling a ball from the barrel. It has Steel threads with a brass collar for strength and durability, works for .45-.58 Cal.

Item#	Black Powder Ball Puller
PUL2	FITS .45-.58 CAL. WITH #10-32 THREAD

Black Powder Scraper

The fouling scraper is made of solid brass for heavy duty cleaning. This scraper can be used to loosen compact fouling and build up.

Item#		Black Powder Scraper
S2	#10-32 THREADS	BLACK POWDER FOULING SCRAPER

SWABS AND PIPE CLEANERS

Cotton Swabs

ITEM# TT-SWAB1

ITEM# SWAB-XL

**Photo of swabs are not true to size

Item#	Description	Quantity
TT-SWAB1	DOUBLE END - TAPERED TIP AND REGULAR TIP 6" COTTON SWAB	50 COUNT PER BAG
SWAB-XL	EXTRA LARGE ABSORBENT COTTON TIP 6" LENGTH	50 COUNT PER BAG

Cotton swabs are great for many applications, such as lubrication cleaning inside actions, getting into barrel chamber, and touch-up bluing spots on barrels, frames, and sights.

Foam Swabs

ITEM# FRECT-50

**Photo of swabs are not true to size

ITEM# FRND-50

Item#	Description	Quantity
FRECT-50	5" RECTANGULAR FOAM SWAB W/ POLYPROPYLENE HANDLE *HEAD SIZE IS APPROXIMATELY 12/16" X 9/16"	50 COUNT PER BAG
FRND-50	LARGE ROUND FOAM TIPPED APPLICATOR WITH PLASTIC HANDLE *HEAD SIZE IS APPROXIMATELY 3/4" X 3/4"	50 COUNT PER BAG

Foam Swabs are economical, reusable, fiber free, and does not leave lint behind. Perfect for cleaning and lubricating hard to reach places. Available in round and rectangle sizes.

Unique Bristle Cleaner

ITEM# BC-24

Tough Nylon bristles with absorbent cotton make these 6" pipe cleaners excellent for pin and screw holes as well as slots and grooves.
The bristles will loosen fouling and dirt, while the mop absorbs the crud and removes it from the hole, slot, or groove.

AR-15 Gas Tube Cleaner

ITEM# ARGTC-50

Extra long 16" Gas Tube Pipe Cleaners allow you to clean the gas tube at one time. The wire core has highly absorbent cotton that carries solvent in and crud out. Regular use will keep the gas tube free of fouling and carbon build up for reliable function. 16" (40.6cm) long, 1/8" (3.2mm) diameter.

Anti-Fog Superior Lens Cleaning Kit

Pro-Shot's Anti-Fog Lens Cleaner is excellent for use in harsh environments such as dust and sand. It is Non-Toxic, Anti-Bacterial, Biodegradable, Ammonia and Silicone Free. This Anti-Fog cleaner is safe for all Glass and Plastic Lenses. The superior formula not only lifts away contaminants and nearly every other degrading element, but also leaves a protective coating with an inverse Anti-Static charge that repels contamination.

ITEM# LCK

- Superior Lens Cleaning Brush
- Premium Anti-Fog Lens Cleaning Solution 0.5 fl. oz. (14ml)

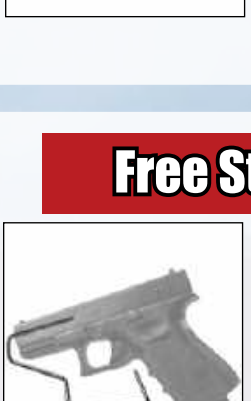
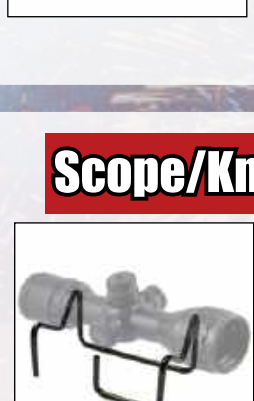
Pistol Clip Display Stand



Item#	Description
RW-1	10 PACK
RW1-100PK	100 PACK

Attach the stand to the front of the glass shelf to display handguns closer to the customers view for increased visibility. Pistol clips allow for more guns to fit on a single shelf by being placed at an angle rather than being laid flat on their side. It also gives an exact return location for sales associates to place pistol, keeping your displays looking professional and organized, saving time in the process.

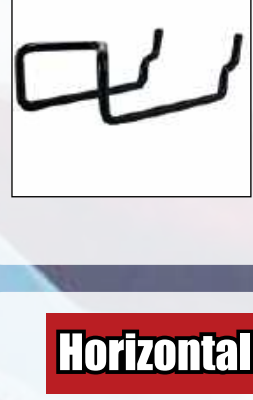
Pistol Clip Safe Holders



Item#	Description
PSH4	4 PACK
PSH100	100 PACK

Pistol clips organize and allow you to hang pistols in your safe. Now you can use the most open space in your safe directly under the shelves. Durable vinyl coated finish protects the pistols barrel. Offers quick and easy access to your pistols and maximizes your safe space.

Free Stand Display



Item#	Description
RWS-2PK	2 PACK
RWS-10PK	10 PACK
RWS-100PK	100 PACK

Display stands will give a great presentation of your inventory, while also displaying the maximum amount of pistols possible in the given area. Free stand displays also insure that every time the gun is taken out of the cabinet it is returned to the exact same location, making organization and presentation a breeze. Use in combination with RW-1 to complete the bottom shelf of a glass case. Great for individual pistols in gun safes. Allows for quick and easy access.

Scope/Knife/Suppressor

Item#	Description
SSK-DISPLAY-10	10 PACK
SSK-DISPLAY-100	100 PACK

Display scopes, knives and suppressors for a professional looking showcase. Excellent for most scopes and suppressor sizes. Prevent rolling in display cases.

- Coated Wire
- Size 2"H x 4"W x 23/8"D
- Made In USA

Vertical Long Gun Display

Item#	Description
